

# Head of Products and R&D

We're looking for an individual with a flair for numbers, strong analytical skill-set, and passion for developing new diets, toppers and treats for pets.

Someone who's solution-minded, hard-working, enjoys bringing new ideas to the table and ready to help us innovate the Malaysian pet food scene.

You'll be working along with a driven team aiming to be the leading local pet food brand in Malaysia:

## **Your areas of responsibility will be including, but not limited to:**

- To ensure our products stay on top of our competition, maintaining the highest quality by consistently collecting qualitative and quantitative feedback.
- Lead a dedicated R&D arm for developing new products.
- Manage from concept, to design, sample production, testing, forecast, cost, and mass production.
- To assist in setting the long-term vision and strategy for our companies products.

## **Qualifications**

- Proven work experience in the F&B and/or veterinary industry.
- Bachelor degree in nutrition, food science or similar.
- Preferably experienced in developing diets for animals.
- Fluent in English.
- A solid understanding of manufacturing and food safety.
- An ability to analyze market trends and provide data-based advice.
- Strong analytical skills with attention to detail.
